# Welcome to the

**FUNDY trail**

Hugging the coast of the awe-inspiring Fundy Escarpment on the Bay of Fundy, the Fundy Trail is a 2,559-hectare linear park and ecosystem. Its auto parkway travels 16 kilometres (10 miles) along the Fundy cliffs and dramatic coast sculpted by the tides. Part of Stonehammer Geopark and UNESCO-designated Fundy Biosphere Reserve, it travels through 251-million-year-old rock and gives way to breathtaking coastal views. Brilliant red, orange and yellows add to the beauty of the trail in the fall.

Plan to spend some time in the gateway community of St. Martins, just 10 kilometres (six miles) from the entrance to the Fundy Trail. This historic village features two picturesque covered bridges, lighthouses, a long stretch of cobbled beach, craft shops, local general store and local restaurants serving delicious seafood and award-winning chowder. Walk the ocean floor at the sea caves during low tide. Stop at the Quaco

Museum to hear stories of the people who built over 500 ships on the beaches of the Bay of Fundy and learn about the men who captained them and the important role of women in the golden age of sail. The quaint and colourful harbour is popular with photographers and painters as fishing boats rest in the mud at low tide and then, six hours later, bob at the wharf – a natural demonstration of the highest tides in the world.
